The Geebung Kindergarten and Preschool has been established since 1966. Within our setting we aim to create a relaxed and warm learning environment. Children are able to develop at their own rate and opportunities to enhance children's social and educational development are created in a free and flexible learning environment. Our curriculum follows C&K's 'Building waterfalls' – a living and learning curriculum framework.

Throughout the day, our curriculum provides time for active play, quiet time, creative play and time for us to come together to share stories, music, ideas and personalities.

Children learn best in a fairly unstructured but well guided environment. Where teachers are aware of individual and group interests, needs and abilities and plan accordingly. Whilst routine is an important part of the day, flexibility is the key to ensuring that the children have a rich and fulfilling pre-prep.
